The Unaudited Condensed Interim Financial Statements should be read in conjunction with the audited financial statements of the Bank for the year ended 31 March 2023.

Explanatory Notes

**A1. BASIS OF PREPARATION**

These condensed interim financial statements have been prepared in accordance with MFRS 134 *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB") and complies with the International Accounting Standard ("IAS") 34 *Interim Financial Reporting* issued by the International Accounting Standards Board.

These condensed interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements of the Bank for the financial year ended 31 March 2023.

**A1.1 Significant Accounting Policies**

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amendments to published standards:

- Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Definition of Accounting Estimates (Amendments to MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 *Income Taxes*)
- International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 *Income Taxes*)

The adoption of the relevant amendments to published standards did not have any material impact on the financial statements of the Bank. The Bank did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amendments to published standards.

The nature of the amendments to published standards relevant to the Bank are described below:

**(a) Classification of Liabilities as Current or Non-Current (Amendments to MFRS 101 *Presentation of Financial Statements*)**

The amendments clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities are classified as non-current if the entity has a substantive right to defer settlement for at least 12 months at the end of the reporting period. Classification is unaffected by the expectations or intentions of the entity, as well as events after the reporting date. The adoption of these amendments did not result in any impact to the financial statements of the Bank.

**(b) Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)**

The amendments require entities to disclose material accounting policies rather than significant accounting policies in the financial statements. Entities are expected to make disclosure of accounting policies specific to the entity and not generic disclosures on MFRS applications.

**A1. BASIS OF PREPARATION (CONT'D.)**

**A1.1 Significant Accounting Policies (Cont'd.)**

**(b) Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*) (Cont'd.)**

An accounting policy is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the users make based on those financial statements. Also, accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. Immaterial accounting policy information need not be disclosed. The adoption of these amendments did not result in any material impact to the financial statements of the Bank.

**(c) Definition of Accounting Estimates (Amendments to MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*)**

The amendments redefined accounting estimates as “monetary amounts in financial statements that are subject to measurement uncertainty” and provide clarity on how to distinguish changes in accounting policies from changes in accounting estimates.

The amendments further clarified that effects of a change in an input or measurement technique used to develop an accounting estimate (for example, expected credit losses, fair value of an asset or liability, and depreciation for property and equipment) is a change in accounting estimate, if they do not arise from prior period errors. The adoption of these amendments did not result in any material impact to the financial statements of the Bank.

**(d) Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 *Income Taxes*)**

The amendments clarified that the initial exemption rule from recognising deferred taxes does not apply to transactions where both an asset and a liability are recognised at the same time resulting in equal amounts of taxable and deductible temporary differences. This essentially means that lessees would not be able to apply the initial exemption rule in MFRS 112 for the assets and liabilities arising from leases. The adoption of these amendments did not result in any material impact to the financial statements of the Bank.

**(e) International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 *Income Taxes*)**

The amendments introduced a mandatory temporary exception to the accounting for deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules. The adoption of these amendments did not result in any impact to the financial statements of the Bank.

**A1. BASIS OF PREPARATION (CONT'D.)**

**A1.1 Significant Accounting Policies (Cont'd.)**

**Standards issued but not yet effective**

Description	Effective for annual periods beginning on or after
- Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 <i>Leases</i> )	1 January 2024
- Non-current Liabilities with Covenants (Amendments to MFRS 101 <i>Presentation of Financial Statements</i> )	1 January 2024
- Supplier Finance Arrangements (Amendments to MFRS 107 <i>Statement of Cash Flows</i> and MFRS 7 <i>Financial Instruments: Disclosures</i> )	1 January 2024
- Lack of Exchangeability (Amendments to MFRS 121 <i>The Effects of Changes in Foreign Exchange Rates</i> )	1 January 2025
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10 <i>Consolidated Financial Statements</i> and MFRS 128 <i>Investments in Associates and Joint Ventures</i> )	To be determined by MASB

The nature of the amendments to published standards that are issued and relevant to the Bank but not yet effective are described below. The Bank is currently assessing the financial effects of their adoption.

**(a) Amendments to published standards effective for financial year ending 31 March 2025**

**Lease Liability in a Sale and Leaseback (Amendments to MFRS 16 *Leases*)**

The amendments clarified that, in subsequently measuring the lease liability, seller-lessee determines lease payments and revised leased payments in a way that does not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee.

**Non-current Liabilities with Covenants (Amendments to MFRS 101 *Presentation of Financial Statements*)**

The amendments clarified that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before reporting date would affect classification as current or non-current, even if the covenant is only assessed after the entity's reporting date.

**Supplier Finance Arrangements (Amendments to MFRS 107 *Statement of Cash Flows* and MFRS 7 *Financial Instruments: Disclosures*)**

The amendments introduced new disclosure requirements for supplier finance arrangements which include terms and conditions of supplier financing arrangements, the amounts of the liabilities that are the subject of such agreements, the range of payment due dates and information on liquidity risk.

**A1. BASIS OF PREPARATION (CONT'D.)**

**A1.1 Significant Accounting Policies (Cont'd.)**

**Standards issued but not yet effective (Cont'd.)**

**(b) Amendments to published standards effective for financial year ending 31 March 2026**

**Lack of Exchangeability (Amendments to MFRS 121 *The Effects of Changes in Foreign Exchange Rates*)**

The amendments clarified when a currency is exchangeable into another currency and how an entity estimates a spot rate when a currency lacks exchangeability. New disclosure requirements include the nature and financial impacts of the currency not being exchangeable, spot exchange rate used, estimation process and risks to the entity when the currency is not exchangeable.

**A1.2 Significant Accounting judgements, Estimates and Assumptions**

The preparation of the condensed interim financial statements in accordance with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of revenue, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Judgements, estimates and assumptions are continually evaluated and are based on the past experience, reasonable expectations of future events and other factors. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Bank's accounting policies, the significant judgements, estimates and assumptions made by management were the same as those applied to the annual financial statements for the financial year ended 31 March 2023.

**A2. AUDIT QUALIFICATION**

The auditors' report on the audited annual financial statements for the financial year ended 31 March 2023 was not qualified.

**A3. SEASONALITY OR CYCLICALITY OF OPERATIONS**

The operations of the Bank were not materially affected by any seasonal or cyclical fluctuation in the current financial quarter and period.

**A4. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE OR INCIDENCE**

There were no unusual items during the current financial quarter and period affecting the financial results of the Bank.

**Registration No. 199401009897 (295576-U)**  
**AmBank Islamic Berhad**  
**(Incorporated in Malaysia)**

**A5. CHANGES IN ESTIMATES**

There was no material change in estimates of amounts reported in prior financial years that have a material effect on the financial quarter and period.

**A6. ISSUANCE, REPURCHASE AND REPAYMENT OF DEBT AND EQUITY SECURITIES**

On 27 June 2023, the Bank issued Tranche 11 with nominal value of RM500.0 million under its RM3.0 billion Subordinated Sukuk Murabahah ("Sukuk Murabahah") programme. The profit rate of this tranche is at 4.53% per annum and have a tenure of 10 years (non-callable 5 years).

Other than disclosed above, there were no new issuance of debt and equity securities, share buy-backs, share cancellations, shares held as treasury shares nor resale of treasury shares and repayment of debt securities by the Bank during the financial quarter and period.

**A7. DIVIDENDS**

The Directors proposed the payment of an interim single-tier dividend of 13.3 sen per ordinary share on 494,368,541 ordinary shares amounting to approximately RM65.8 million in respect of the six months period ended 30 September 2023.

No dividends were paid in the current financial period.

The RA is a contract based on the Shariah concept of Mudarabah between two parties, that is, capital provider and entrepreneur to finance a business venture where the business venture is managed solely by the Bank as the entrepreneur. The profit of the business venture is shared between both parties based on a pre-agreed ratio. The capital provider for the RA contracts is AmBank, a related company.

As at 30 September 2023, ECL allowance for the investment asset borne by AmBank amounted to RM1.6 million (31 March 2023: RM1.3 million).

As at 30 September 2023, the remaining tenure of the RA contracts is for a period of 4 to 7 years (31 March 2023: 4 to 7 years).

### **A30. BUSINESS SEGMENT ANALYSIS**

Segment information is presented in respect of the Bank's business segments. The business segment information is prepared based on internal management reports, which are regularly reviewed by the Chief Operating Decision Maker in order to allocate resources to a segment and to assess its performance.

The Bank comprises the following main business segments:

(a) Retail Banking

Retail Banking continues to focus on building mass affluent, affluent and small business customers. Retail Banking offers products and financial solutions which includes auto finance, mortgages, personal financing, credit cards, small business financing, priority banking services, wealth management, remittance services and deposits.

(b) Business Banking

Business Banking ("BB") focuses on the Small, Medium and Large Enterprises segment, which comprises Enterprise Banking and Commercial Banking. Solutions offered to Enterprise Banking customers encompass Capital Expenditure ("CAPEX") financing, Working Capital financing and Cash Management and while Commercial Banking offers the same suite of products, it also provides more sophisticated structures such as Contract Financing, Development Financing and Project Financing.

(c) Wholesale Banking

Wholesale Banking comprises Corporate Banking, Transaction Banking and Group Treasury and Markets:

- (i) Corporate Banking offers a full range of products and services, including corporate lending, investment banking advisory, trade finance, offshore banking and cash management solutions to wholesale banking clients;
- (ii) Transaction Banking delivers tailor-made digital and cash management solutions, as well as trade financing and remittance services, to corporate and SME clients;
- (iii) Group Treasury and Markets manages liquidity for the banking group and offers financial market and hedging solutions across all asset classes to a broad range of clients. The sales and trading activities cover fixed income, interest rates, foreign exchange, money market, equity derivatives, commodities and other derivatives.

**A30. BUSINESS SEGMENT ANALYSIS (CONT'D.)**

The Bank comprises the following main business segments (cont'd.):

(d) Investment Banking

Investment Banking offer Islamic advisory services and a wide range of Shariah-compliant financial and investment solutions that include sukuk origination, Islamic equity or equity related capital markets offerings, Islamic structured finance.

(e) Group Funding and Others

Group Funding and Others comprise activities to maintain the liquidity of the Bank as well as support operations of its main business units and non-core operations of the Bank.

Measurement of Segment Performance

The segment performance is measured on income, expenses and profit basis. These are shown after allocation of certain centralised costs, funding income and expenses directly associated with each segment. Transactions between segments are recorded within the segment as if they are third party transactions and are eliminated on aggregation.

Note:

- (i) The Chief Operating Decision Maker relies primarily on the net finance income information to assess the performance of, and to make decisions about resources to be allocated to these operating segments.
- (ii) The financial information by geographical segment is not presented as the Bank's activities are principally conducted in Malaysia.
- (iii) The comparatives have been restated with current business realignment.

**A31. PERFORMANCE REVIEW FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2023**

The Bank reported a lower profit before zakat and taxation of RM69.9 million for the financial period ended 30 September 2023 compared to the corresponding period ended 30 September 2022 of RM354.7 million. The lower profit was mainly due to higher other operating expenses of RM78.8 million, lower net finance income of RM31.9 million and higher ECL of financial investments and other financial assets of RM6.1 million, offset by higher other operating income of RM22.7 million, lower net allowance for impairment on financing and advances of RM15.4 million and writeback of ECL on financing commitments and financial guarantee contracts of RM8.6 million.

In the opinion of the directors, the results of operations of the Bank for the financial period have not been substantially affected by any item, transaction or event of a material and unusual nature.

**A32. PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 MARCH 2024**

During third quarter of 2023, Malaysia's economy expanded by 3.3% year-on-year ("yoy"), faster pace compared to the previous quarter's 2.9% based on Department of Statistic Malaysia ("DOSM")'s preliminary estimates showed. The faster growth can be attributed to the strong expansion in the services sector, which rose by 5.1% yoy, alongside the construction sector's growth (+5.8% yoy) and recovery in the agriculture sector (+0.8% yoy). On the flipside, both manufacturing and mining and quarrying sectors declined marginally by 0.1% yoy.

We expect the global economic condition for the remainder of the year until the early part of 2024 will continue to be subdued, as most economies are still adjusting to the high interest rates environment implemented by most central banks. Globally, the outlook on the manufacturing sector remains pessimistic, reflected in the latest Global Purchasing Manager's Index ("PMI") that has been under the contractionary level since March 2023. In the United States, the Federal Reserve's ("Fed") fight against inflation seems successful as inflation and core inflation are receding. However, it comes with a price as interest rates are likely to stay elevated at above until the end of 2024. Similarly, rates are likely to remain high in the United Kingdom and Eurozone and signs of softer economic activity have already become apparent in those economy. The upside risk to inflation is seen coming from the recent rise in global oil prices and if the situation persists as we step into 2024 later, consumer purchasing would be eroded further. In China, signs of stabilising economy emerge as the recent third quarter of 2023 Gross Domestic Product ("GDP") posted a 4.9% yoy growth, beating market forecast of 4.4% yoy.

We anticipate continued support for growth from domestic demand this year. Wage growth in both the services and manufacturing sectors appears to have peaked, and employment growth has slowed to 2.0% in September 2023. However, the vacancy-to-unemployment ratio remains higher than pre-pandemic levels, suggesting room for improvement in private spending. Furthermore, tourism and related sectors are still improving and have yet to reach its pre-pandemic level. On the downside, subdued global trading activities is expected to persist and constraint Malaysia's economic growth. We now expect the domestic economy to grow by 4.0% in 2023 and 4.5% in 2024 but balance of risks is tilted towards the downside.

### **A32. PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 MARCH 2024 (CONT'D.)**

On another note, the government released New Industrial Master Plan 2030 ("NIMP 2030") recently which aims to transform industries to the next level in accordance with emerging global trends i.e., capitalising the changing geopolitical landscape, digitalisation and environmental, social, and governance ("ESG") compliances. At the same time, the government also tabled the new 12th Malaysia Plan in which the GDP growth target was revised to 5.0% to 6.0% per annum, compared to previous target of 4.5% to 5.5%. Also, in its recent Budget 2024 tabling, the government set out RM393.8 billion spending for next year. The Budget reflects the government's commitment in consolidating its fiscal position, supporting the People through subsidies and assistance, and embracing ESG into its sustainable economic plan.

In the Malaysia's banking industry, the overall outstanding financing expanded by 4.3% in September 2023. While the non-household segment financing expanded slower at 2.6%, household financing remained healthy at 5.6%. As the economy is expected to soften in 2023, we expect relatively subdued financing growth in the range of 4.0% to 5.0% for 2023 given that financing growth typically tracks GDP growth. The overall banking system remains healthy underpinned by strong liquidity. This is reflected by the liquidity coverage ratio which was at 151.5% in September 2023 (August 2023: 150.3%). The funding profile was also well-diversified with September 2023's financing-to-fund ratio and financing-to-fund-and-equity ratio at 82.5% and 71.9%, respectively (August 2023: 82.3% and 71.6%, respectively).

On the Overnight Policy Rate ("OPR"), with core inflation being modest so far due to slower hiring activities and the lag effect from the 125 bps cumulative rate hikes, we expect the OPR to stay at 3.00% until the end of 2024. Given that core inflation easing further to 2.5% in September 2023 coupled with contraction in exports, there is no immediate pressure to alter the policy rate. Nevertheless, the upside risk to inflation is expected to come from subsidiary rationalisation which is currently in the pipeline. Should the situation later translate into persistently high inflation, then there is a case to revisit our current OPR call.

AMMB Group showed resilience by delivering a strong set of second quarter of financial year ("FY") 2024 financial results despite navigating a challenging environment of weaker than expected external demand, declining commodity production, elevated core inflation and persisting high interest rates. The AMMB Group continues to be optimistic about its FY 2024 prospects, placing confidence in unwavering domestic demand, improving employment rate and wage structure as well as the continued revival of local tourism.

FY 2024 is the final year of the AMMB Group's FY 2021 to FY 2024 Focus 8 strategy and we are as committed as ever to bring this journey to a successful conclusion. The AMMB Group's focus remains trained on growing revenue, maintaining cost discipline, strengthening capital base, ensuring healthy liquidity levels and careful monitoring of asset quality.

Looking into the near future, the AMMB Group views these areas as its key growth accelerators: SME empowerment, advancement of ESG initiatives and digital innovation to continue sustainable value creation for shareholders and stakeholders.

### **A33. VALUATION OF PROPERTY AND EQUIPMENT**

The Bank's property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses (if any).

### **A34. SIGNIFICANT EVENT DURING THE FINANCIAL PERIOD**

There was no significant event during the current financial quarter.

**A35. COMMITMENTS AND CONTINGENCIES (CONT'D.)**

### **A36. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS**

#### **Determination of fair value and fair value hierarchy**

The Bank uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 : other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3 : techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities measured at fair value that are recognised on a recurring basis, the Bank determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial assets and liabilities measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions are assets and liabilities for which pricing is obtained via pricing services, but where prices have not been determined in an active market, financial assets with fair values based on broker quotes, investments in private equity funds with fair values obtained via fund managers and assets that are valued using the Bank's own models whereby the majority of assumptions are market observable.

Non market observable inputs means that fair values are determined, in whole or in part, using a valuation technique (model) based on assumptions that are neither supported by prices from observable current market transactions in the same instrument, nor are they based on available market data. The main asset classes in this category are unlisted equity investments and debt instruments. Valuation techniques are used to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, that is, an exit price from the perspective of the Bank. Therefore, unobservable inputs reflect the Bank's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). These inputs are developed based on the best information available, which might include the Bank's own data, as well as financial information of the counterparties. The Bank does not have any financial assets or liabilities measured at level 3 as at the end of the reporting period and 31 March 2023.
