21. What is a hardware token?

A hardware token is a physical security device issued to Authoriser(s). This device is used to generate dynamic Response Codes for financial transactions.

22. How will I receive the hardware token?

The hardware token will be couriered directly to your official correspondence address.

23. How do I activate my hardware token after I have received it?

Go to Settings > Manage Token > Hardware Token > Click on 'Activate Token' and follow the on-screen instructions where you are required to fill in the TAC and create a hardware token PIN.

24. If I have forgotten my hardware token PIN, how can I change it?

If you have forgotten your hardware token PIN, you will first need to disable your hardware token by keying in a wrong PIN for 5 consecutive times to retrieve 'Lock PIN' on your hardware token. Then, go to Settings > Manage Token > Hardware Token > Reset PIN and follow the on-screen instructions where you are required to key in a TAC to reset your PIN and complete the process.

4: Security

25. Why does my hardware token display 'Locked PIN'?

Your hardware token is disabled as you have entered a wrong PIN for 5 times. You are required to reset your PIN to enable your hardware token again. (Refer to question 24)

26. What is a Response Code?

A Response Code is unique and automatically generated for user to key into AmAccess Biz when authorising financial transactions or administrative tasks.

27. When do I need to input the Response Code?

During approval, an Authoriser is prompted with a Challenge Code on AmAccess Biz screen. The code is required to be keyed onto the hardware token to generate the Response Code. The generated Response Code is then applied on the AmAccess Biz screen to complete the authorisation.

28. Will my hardware token be locked after multiple unsuccessful Response Code attempts?

Yes, your hardware token will be locked after 3 unsuccessful attempts.

29. How can I get my hardware token unlocked?

Go to Settings > Manage Token > Hardware Token > Unlock Token and follow the on-screen instructions where you are required to fill in the TAC and Response Code to complete the hardware token unlocking process.

30. What is a digital token?

AmAccess Biz digital token is a type of transaction authorisation method that is embedded into your mobile device for convenient authorisation of transaction which is initiated from AmAccess Biz Internet Banking or Mobile Banking.

Digital tokens are issued to all users and the usage differs from user role:

- Makers-: Authenticate submission of transactions and profile maintenance.
- Authorisers or Power Users (Maker and Authoriser)-: Approval of transactions and profile maintenance.
- Inquirers-: Profile Maintenance.

31. Can I activate my digital token via web browser?

No. You can only perform digital token activation via AmAccess Biz mobile application.

32. Is there any time limit for a token activation process?

Yes. You are required to complete your digital token activation within five minutes. Otherwise, your digital token activation process will be timed out.

33. Are there any restrictions on digital token PIN setup?

Yes. PINs with the digits in repetitive, ascending or descending order are not allowed.

34. Can I activate multiple digital tokens for different companies that I own into the same mobile device?

4: Security

Yes. You may activate your multiple digital tokens for different login IDs which are registered under the same NRIC/Passport Number into the same mobile device.

Yes, you may. Simply perform a digital token deactivation from your current mobile device, and then you may proceed to perform a digital token activation on your new mobile device.

35. Can I activate my digital token in more than 1 device?

No. Each digital token is only allowed to be activated in one device.

36. What would happen if I had wrongly keyed in my digital token PIN three times in a row, during a transaction authorisation?

When this happens, the digital token will automatically be deactivated. You will need to reactivate it to enable you to perform a transaction authorisation.

37. What should I do if I forgot my digital token PIN?

Click on 'Forgot PIN' link and a guide to reset the digital token will be shown on the pop-up message. Resetting of token can be done via Settings > Manage Token > Digital Token > Reset Token through mobile application.

38. What should I do if I lost my digital token device?

You may deactivate your digital token via AmAccess Biz using other devices or web browser through Settings > Manage Token > Deactivate Token. Alternatively, please contact the bank immediately to ensure your digital token can be promptly deactivated.

39. Can I switch my activated digital token to another device?

40. If I have both the hardware and digital tokens, can I change my transaction authorisation method?

Yes. You may change your default authorisation method from digital token to hardware token through Settings > Manage Token > Preferred Authorisation Method on AmAccess Biz application.

41. Why didn't I receive a push notification when I am authorising a transaction?

In this situation, any of these may have occurred:

- i. 'Allow Notification' function for AmAccess Biz mobile application on phone settings may have been turned off;
- ii. Internet connectivity issue;
- iii. Your digital token device is deactivated; or
- iv. You are using a different mobile device that is not registered with the digital token.

42. What should I do if I did not receive a push notification to complete the transaction authorisation?

- i. You will be able to launch the AmAccess Biz mobile application after clicking 'Approve' or 'Reject' on Transaction Details screen. You will see the signing-detail page being displayed.

4: Security

ii. Alternatively, please check your device through Settings > 'Allow Notification' for AmAccess Biz mobile application to see whether it is enabled. If it is not, please proceed to enable it and you will then be able to receive push notification.

43. Is there any approval limit in using digital token to authorise transaction?

Yes. The transaction amount allowed to be authorised using digital token is below MYR100,000.00. For transaction amount of MYR100,000.00 and above, a hardware token will be required for authorisation.

44. Can I perform Change of PIN on web browser or any mobile device?

No. You can only perform change of PIN on your digital token device.

45. Can I deactivate my digital token using web browser or any mobile device?

Yes. Digital token deactivation can be performed via web browser or any mobile device.

46. If I have a few devices installed with AmAccess Biz application, how would I know which device is tagged with the digital token?

You will be able to identify the mobile device that is tagged with the digital token via Settings > Manage Device on the channel. A red security logo will be displayed to identify the digital token device.

47. If I were to follow the steps of removing the digital token device through Settings > Manage Devices, what will happen to my digital token?

Your digital token will be deactivated.

48. What would happen to my hardware or digital token if my account is suspended or has been reset?

You will not be able to authorise any transactions when your account has been reset or suspended.

In order to authorise any transaction again, you will be required to complete the 'Reset Account' process on the login page (Login Problems > Reset Account).

Then, you will need to activate your digital token after logging in to your account.

49. I am prompted with pop-up screen to answer the security questions or key in TAC when performing transactions (for both monetary and non-monetary transactions). What should I do?

You are required to answer the security questions or key in TAC for verification purpose before you can proceed with the transaction.

50. Why is my transaction still under 'Processing' status even though it has been approved?

For security reasons, your transaction will be held for processing for a period of 24 hours. You may be contacted by the bank to verify the transaction.

4: Security

51. Why is my transaction declined?

Your transaction is declined due to security reasons. You may contact the bank for further enquiry.

Once your company has been onboarded, a First-Time Login Instruction email notification will be sent to your company's users.

247. Will I still be able to log in to e-AmBiz after switching to AmAccess Biz?

No. After you have been migrated to AmAccess Biz, your e-AmBiz access will be blocked. When this happens, you will receive a notification when you try to access via e-AmBiz, which will prompt you to access your business accounts via AmAccess Biz instead.

If you have not created your user account, you will be required to complete the 'e-AmBiz Migration Login' process which is available at biz.amaccess.com.my.

248. What will happen to my existing e-AmBiz token after my migration to AmAccess Biz?

Your token will also be migrated to AmAccess Biz. You may continue to use the same token for transaction authorisation in AmAccess Biz, after you have updated your preferred authorisation method, i.e., whether to use hardware token or digital token as your default token for authorisation.

260. What will happen to my approved future-dated transactions in e-AmBiz after my company has been migrated to AmAccess Biz?

Approved future-dated transactions will be processed as per schedule. To check your transactions, log in to AmAccess Biz, go to "Accounts" menu and select an account to view the transaction history.

261. What are the benefits of migrating from e-AmBiz to AmAccess Biz?

AmAccess Biz is designed to be user friendly with various useful functions that are easily navigated throughout the platform. (Refer to Question 209)

We have created AmAccess Biz, a new online Business Banking channel or Cash Management System that is simple and easy to use for our customers to benefit from. A year of research and development had gone into creating this system to ensure improved user experience for all our business customers.

As such, you are highly encouraged to take advantage of this new channel that we are offering by switching from e-AmBiz to AmAccess Biz once you received our email notifications to switch your account access (refer to Question 209 for comparisons between both systems).

However, should you wish to remain as a user of e-AmBiz, you may notify us by sending us a letter from your company's authorised signatory. Kindly scan this letter and email it to amaccesscare@ambankgroup.com.
